

NOTICE

The South Brevard Water Co-Op (SBWCOP) was funded and developed by Sunnyland residents to provide Potable water to Sunnyland Beach and the adjacent areas. We officially filed our Articles of Incorporation on October 21, 1987.

The Saint Johns River Water Management District will only allow us to withdraw a specific amount of water from the underground aquifer each year. We are approaching that limit and can only approve hook ups to our distribution system for the following roads with empty lots directly within the Sunnyland Beach area:

Arrowhead Lane, Beverly Court, Hiawatha Way, Mohican Way, Nikomas Way and Stuart Avenue.
