

SOUTH BREVARD WATER CO-OP

January 11, 2024

Dear Customer,

As a reminder, **you are responsible for all repairs and troubleshooting to the water distribution system after the meter** including but not limited to : the line from the meter to your house, your house and any other structure that has a water supply.

Accurate Utilities (AU) will answer any call to determine if a leak is your responsibility or the Co-Op's **at no charge to you.**

If you want AU to find your leak **after the meter** you will have to pay them by signing below and providing your address so our Billing agent can add the charge to your water bill.

AU will give you an estimate for this service.

In addition, if AU cannot find or are unable to fix the leak then you will have to call a Plumber to come to your house and fix it at your expense. AU has three Plumbers that they recommend: Sun Plumbing (321) 725-2460, Certified Plumbing of Brevard, Inc. (321) 676-0812 and Dave's Plumbing and Drain Cleaning, Inc. (321) 255-1577 or any other plumber that you choose.

Again if you want AU to find the leak and possibly fix it **sign below** in the space provided and **give us your address.** Otherwise call a plumber of your choosing to make the repair.

Signature: _____ Address: _____

Thank You,

Stephen G. Petrovits

Chairman South Brevard Water CO-OP
